### PROFILE

Temijopelo is a dedicated junior full-stack engineer with a strong focus on React and a deep commitment to continuous learning. Known for his proactive approach and driven work ethic, he combines technical skills with creativity, making significant contributions to every project he takes on. Currently, he's involved in projects that showcase his attention to detail, organisational skills, and genuine passion for software development. Temijopelo's strengths in communication and time management help him thrive in both individual and collaborative environments, as he consistently strives to deliver impactful, high-quality solutions that meet user needs.

### PROFESSIONAL EXPERIENCE

- 09/2024 – present

Junior Frontend Developer

Bluechip Technologies

  - Working closely with backend engineers to align on API structure, data handling, and general integration.
  - Developing **reusable components** (like modals, forms, and dropdowns) using component-based frameworks or libraries such as React
  - Communicating with designers to understand design intent, gather feedback, and ensure accurate implementation.
  - Working on improving page load speed by optimizing images, minimizing CSS and JavaScript, and **leveraging caching**.
  - Identifying, reporting, and fixing bugs in front-end code to ensure a seamless user experience.
- 05/2023 – present

Junior Frontend Developer

Scriptdesk

  - Working with the product team to implement changes based on user feedback and continuously improve the user experience.
  - Participating in code reviews with senior developers to get feedback and ensure code quality.
  - Proactively learning new libraries, languages, or tools to enhance technical skills and apply them to ongoing projects.
  - Integrating front-end components with backend APIs to display dynamic data.
